CAREER OBJECTIVE

Motivated Computer Science student with a strong interest in Artificial Intelligence, Machine Learning, and Software Development. Currently building hands-on projects using Python and modern web technologies. Seeking an internship opportunity where I can apply my technical skills, learn from experienced developers, and contribute to real-world software and AI solutions.

PROJECTS

- ❖ Reinforcement Learning: Cart-Pole Agent , Treasure Hunting Game
 - Built an RL agent using OpenAI Gym.
 - Evaluated training performance and rewards.
 - Implemented Q-Learning , DQN for path optimization.
- ❖ Neural Network Fundamentals
 - Developed classification and clustering models.
 - Performed data preprocessing and evaluation
- ❖ Web Development Project
 - Created responsive web applications.
 - Worked on frontend and backend integration.
- ❖ Chatbot
 - Built a conversational AI chatbot using LLM APIs.
 - Implemented prompt engineering techniques for improved responses.
- ❖ ESP32 Hardware Project
 - Built IoT prototypes using ESP32.
 - Tested sensor and communication modules.

ACHIEVEMENTS

- ❖ Smart India Hackathon (SIH)
 - Collaborated in a team to develop an AI-based solution for a real world problem statement.
 - Contributed to development, testing, and presentation.
 - Selected as a University-Level Winner among competing teams.
- ❖ Academic & Technical Activities
 - Actively involved in AI, Machine Learning, and Software Development projects.
 - Collaborate effectively in team-based project environments.

EDUCATION

Pursuing - B.Tech in CSE (AI & ML)

🎓 **Guru Jambheshwar University of Science and Technology**

📍 Hisar, Haryana

📅 September 2023 - May 2027

Relevant courses

Artificial Intelligence Basics
Machine Learning
Neural Network
Data Mining
Data Analytics
Programming Fundamentals
Data Structures & Algorithms

TECHNICAL SKILLS

Programming Languages

C , Python , Java , SQL

Web Development

HTML , CSS , JavaScript
REST APIs

AI & Machine Learning

NumPy , Pandas , Scikit-learn
Machine Learning Fundamentals
Natural Language Processing Basics
Fine-tuning

Tools & Platforms

Git , GitHub
Hugging Face
VS Code , Antigravity
